UNIVERSITY REPORTER

VOL. VII.

ATHENS, GA., SATURDAY JAN. 21, 1888.

THE INTERESTS OF THE UNIVERSITY OF GEORGIA.

ACADEMIC POTS.

To looking over the Centennial Catalogue, our eyes chance to fall on the names of some of Georgia's noblest sons; and although dead, yet their names live after them. Many of Georgia's bravest and most brilliant sons were graduates of the State University. Among the most prominent are the following:

Hon. A. B. Mephan graduated here in 1832. He was a successful lawyer, afterwards elected a member of the United States Congress, then to the Vice-Presidency of the Confederacy, then re-elected to the U. S. Congress, and last of all, died serving his fellow countrymen as Governor.

Judge Herschel V. Johnson received his diploma at this College in 1834. He was a member of the U. S. Congress afterwards served for a number of years as Judge of the Superior Court, then Governor of the State of Georgia.

Hon. Howell Cobb, of the same class was also an honored citizen. He was a member of the U. S. Congress in 1843-1851, Governor of Georgia in 1851-52, member of the U. S. Congress 1855-57, Secretary of the Treasury 1857-59. President of Provisional Congress of the Confederate States 1861. Colonel of the 16th Georgia Regiment, Confederate States army, Brigadier and Major General in the same.

Hon. Benjamin H. Hill completed the course in 1844. He was an eminent lawyer, a member of the Ga. Legislature, also member of Senate of Georgia Legislature, Confederate States Senator member of the U. S. Senate and Congress.

Bishop George F. Pierce graduated here in 1829. He was elected President of Emory College; Bishop of the Methodist Episcopal church, South.

Are the lives of such men not worthy of our imitation? Are their examples of successful energy and perseverance not fitting for us to pattern after? Why certainly they are. Then let us renew our resolutions, put on new zeal, stir up new energy, endeavor to make our calling and election sure, and like these men we may have our names enrolled on the list of honor and fame and if not, we will certainly make life a success, and that is the grandest victory after all. "The lives of great men all remind us that we like them may make our lives sublime."

Brilliant—Their eloquence pealed forth in the halls of our congress. Revered Statesmen—They displayed their skill at the helm of their governments.

Enamored Lawyers, and Judges of Law—They evidently demonstrated the fact by the success which they achieved.

Rhea Genera.—The records of the late war show for themselves.

A frequent and eminent Divine.

But they are dead; they are; I am of as firm a faith now, as I was before I knew them, and will not say, 'was no they are dead."

Let us educate our children, the next generation, to the same high moral standard. "Let us set the example, and let us be" is our的最后一句。
We have received a request to have regular class exercises at some time in the near future. They will be held to give the students an opportunity to review and consolidate their knowledge in the different subjects they have been studying. The exercises will start next Saturday, and will be held every other Saturday until the end of the semester. We encourage all students to attend these exercises to improve their understanding of the material covered in their classes.

The Academic Association is now getting in good trim, and will meet next Field Day to see what improvements have been made since last term. A committee has been appointed to arrange for the day, and work immediately. They have a great deal of work before them, and should commence at once so as to have the exercises well organized by next Field Day.

We learn that the Law Class is to have regular class exercises at some time in the near future. They will plant a pumpkin vine, and go through all the paraphernalia of the vine-keeping genre. We wish them much success in their undertaking, for they are establishing a custom hitherto unknown in the history of the University, and one which will live to the advantage of the future.

TOLUARI.

We hope that the Geological survey of the Senior class will not fall through this year. Last year the class was small, and the anxiety to do such a trip was not so high, and from these causes, the trip was abandoned. But this year, with forty-five men in the Senior class, and with a determination to fathom the mysteries of Geology, they will do all in their power to make the trip a success. It will be held at Tallulah Falls, where the scenery is beautiful, and the geology is interesting. We expect the trip to be a great success, and we hope that the Faculty will agree to do what Dr. Jones made to the students.

ADAPTED QUOTATIONS.

(2000-6-9-6) Envious vanquished, she could ignore him—\( \frac{1}{2} \) Whish.
(6-9-6) Queret who was about with dedication—\( \frac{1}{2} \) Silverthorne.
(C. C. Price) A proper youth, soft-spoken and fond of Oriental (Arabian) Brays. He must be set for his recital tonight.
(W. O. Redmond) Up, up, my friend and quit your books—\( \frac{1}{2} \) Whishworth.
(L. C. Girr) As avid without her lewd curiosity, Shakespeare.
(2000-5-9-6) Of new editors—gone, but not forgotten—Tennyson.
(2000-5-9-6) A most trivial thing as I think he stands—Tennyson.
(Jon Gaston) Combed down his hair, lock, lock, let it dry—\( \frac{1}{2} \) Silverthorne.
(J. R. Cooper) First sundial set down on my head—Gold medal.
(AL. Dearborn) He is of extra small—\( \frac{1}{2} \) Redhead.
(John Little) I must at the barber, for I mustn't look as merry—\( \frac{1}{2} \) Tennyson.

THE NEW OPERA HOUSE.

Athens has just cause to be proud of this elegant structure. The old house had become very dirty and unsightly, and something had to be done to secure a better one. After some time a company was formed, and by their united efforts the new Opera House was built. It is splendid in all its apartments, and would be the pride of many places larger than Athens. The formal opening of the House occurred Mon.

Mr. W. E. Steed was initiated a regular member of the Society.

Question debated was: Resolved, "That the University is composed of a set of fellows."

It is about time for something to be done by the Class of '88, regard to the Society which is to meet on the campus next commencement. We suggest that a committee be appointed to look into the matter once more.

We suggest that a committee be appointed to look into the matter once more.

EXERCISES. The sum of fifty dollars has been made since last term. A committee has been appointed to arrange for the day, and work immediately. They have a great deal of work before them, and should commence at once so as to have the exercises well organized by next Field Day.
The college bell rings once more and a welcome sound it is to the student's ear. No one can imagine the happiness occasioned by bincnings of the clapper, or the happy cause, caused by the purchase of a new one.

College prayer meeting was held last Friday night, as usual. The number present was small, but the interesting meeting, nevertheless, let everyone attend these meetings.

Dr. Mell reached Athens last Saturday night. He spent the trip very well and was shortly inspecting during the week. We hope to see him out with us again at an early date.

Mr. Davidso, have you got all the doors have been on the road for you draw a quadrilateral triangle. Demonstration. Davidsou: "When put in . . ."

Robinson coming in Sheppard room, inquires for a map of Georgia. Sheppard: "Why, I wish to make composition on the Mississippi river."

The Soph class has been reinforced by Mr. W. B. Smith of Grantville. A bright Soph. in speaking of the cold weather, said that "the thermometer registered 12 degrees above zero in a warm room."

We are very sorry to hear that our friend "Freddy" Callaway is suffering with a bad case of child stuggers. It is said of him indeed, that he is sorely afflicted. The probable cause of his illness is excessive eating and low making.

The following was handed us by Sophomore, and we take pleasure in inserting it: "There are problems in arithmetic. This calls a fellow's gift: Algebraic equations, and geometric proofs. But the toughest of all problems, That with made a Sophomore's day. To get into Prof. Sheppard's room.

D. B.

HOUSE DUTIES.
The time for finals has arrived, and oh, how sorry we girls are.

Miss Oma Williams left this morning for her home, much to the regret of her friends.

Several of the girls are developing a new talent, that of writing poetry. Who knows what poetic lines will be slumbering within the walls of the Lucy Cobb.

The Chattoquah had one of its pleasant meetings the other night. Miss Worley was the author advertised. The essays were unusually fine, and the ready answers to all questions, astonished even the members themselves.

Miss Lipscomb in Atlanta for the purpose of seeing Booth and Barrett. She returns Monday. It is generally agreed upon by the girls that the Phantom Party was more successful than any masqueder ever before given.

Some kind friend has suggested that we publish a paper at the Institute. The experiment has been tried, and proved sufficiently unsuccessful.

George Williams.
UNIVERSITY JEWELER.
Repairing Fine Watches, Judges and Pins a Specialty.
