

Katherine Bennett joins CED

 CED IT

August 16, 2016

Katherine Bennett has joined the CED faculty for this year, teaching 2000-level studios and graphics. Bennett remembers the Jackson Street Building fondly as this is where she got her BFA in 1988. She also holds an MLA from the Harvard Graduate School of Design (1998) and is a licensed landscape architect. Ms. Bennett has several years of experience in professional design firms including Andrea Cochran Landscape Architecture, San Francisco where she was a designer and project manager. Most recently, she has been teaching at The Ohio State University. We welcome Professor Bennett back to Athens, Ga.!
